Watch your thoughts for they become words; watch your words for they become actions; watch your actions for they become your habits.....Every family wants to be happy, but so many families do not know how. In this age of skepticism, there is so much negativity around us all the time. The skills that help us to examine our thoughts empower parents and give the family a different perspective.

Parents, you are the mentors who give all the nurturing attention necessary for a fulfilling parent-child relationship. Effective parenting shapes characters and touches lives!
